BY COFFEE ON LEADERSHIP

## TODAY'S INTENTION

## START OF DAY REFLECTION

How am I embracing this intention in my leadership or with my team right now?

How will I strive to make this word impact my day based on the plans, work, and conversations I have ahead of me?

As a leader, what would change if I truly embodied this word?

## END OF DAY REFLECTION

How did this Leader Card impact or influence the way I led myself and/or my team today?

Did it change how I approached a specific situation as a leader or could I have done something differently?

How will I continue to integrate this intention more authentically into my daily leadership in the future?
